

RECYCLING

NB!
No plastic bags, magazines, envelopes or office paper

Paper/Carton packaging

Packaging that consists of at least 50% paper, like milk and juice cartons, cereal boxes, paper bags and cardboard boxes.

Empty, and fold together to preserve space.

Collected carton materials are recycled into new packaging materials or paper layers for sheet rock.

Nothing but food waste!

No: packaging materials, ashes, chewing gum, cigarette butts, snuff or other tobacco products, kitty litter, dog droppings, garden waste or plants and no soil, gravel or sand. Nothing but food waste in the paper bag!

Food Waste

Food waste is leftovers, cooked or raw.

Examples are: vegetables, peelings, fruit, meat, fish and other seafruits, eggs, bread, pasta, flour, dairy products, candy, coffee grounds and teabags etc.

-Wet waste like tea bags, coffee grounds and potato peelings should be allowed to drain properly before putting it in the paper bag.

-Keep the waste level below the dotted line. When it reaches the dotted line, close the bag and replace it with a new paper bag.

Residual Waste

Residual waste is what's left when you have recycled food waste, news papers and packaging materials.

Examples of residual waste:

- cigarette butts, snuff and other tobacco products
- chewing gum
- music or video cassettes, CD and DVD's
- vacuum cleaner bags, house cleaning waste, broken plates and glasses
- diapers, sanitary pads, tampons
- hair brush, tooth brush, toilet brush
- envelopes, post-it notes, non recyclable due to the rubber glue
- pens, crayons, erasers
- kitty litter, dog droppings, small animal bedding (saw dust, straw and hay etc)
- popsicle sticks, tooth picks, Q-tips, cotton, band aids
- clothing, shoes
